DRAFT

DUPAGE RIVER SALT CREEK WORKGROUP
M E M O

TO: All DRSCW Members

FROM: DRSCW Executive Board

DATE: February 11, 2022

RE: Proposed DRSCW FY 22-23 Budget and Five Year Financial Plan

The proposed DRSCW budget for FY 22-23 and DRSCW five year financial plan for FY 23-24 through FY 26-27 are attached for review. These documents reflect the DRSCW fiscal year (March 1 through February 28), are prepared on a cash basis, and detail both the Workgroup Activities Fund and the Workgroup Project Fund for implementation of the DRSCW NPDES permit special condition.

Workgroup Activities Fund

The revenues and expenses of the ongoing activities of the Workgroup since its inception are contained in the Workgroup Activities Fund.

Dues Revenue

Annual dues were received during FY 21-22 from 43 agency members (\$497,470) and 30 associate members and one individual member (\$5,513).

Budgeted Agency dues for FY 22-23 are projected to increase to \$512,390 from 43 agency members. Budgeted associate member and individual dues for FY 22-23 are projected to increase to \$5,690 for 30 associate members and one individual member. The increases reflect the standard 3% inflation increase.

Membership dues for both agency and associate members are budgeted to increase by 3% per year for FY 22-23 through FY 26-27.

Grant Project Fund

Grant Revenue is projected for 22-23 (\$80,000) and 23-24 (\$40,000) reimbursements under our Upper Salt Creek 319 Watershed Plan. Disbursements for the project are found under Other Projects with disbursements equaling revenues.

Interest

Interest revenue in FY 2021-22 was \$9,036. This sharp decline reflects the fall in interest rates that occurred following the implementation of lockdowns during FY 21-22. Low interest rates are predicted to continue with an interest rate of 0.1% being used to predict interest revenues through to FY 26-27.

Administration Expenses

Staff salaries FY 21-22 are projected at \$232,540, less than the budgeted \$234,260. Staff salaries are budgeted at \$246,994 FY 22-23, more than the \$241,290 estimated in last year's plan.

TCF funding of staff hours (2.5% of the two full time equivalents) and the sharing of staff time with other watershed groups (20% of one full time equivalent) started in FY 21-22 and continues during FY 22-23. The latter change reflects more accurately the time allocations spent by technical staff working on implementing the special conditions permit for the Lower DuPage River Watershed Coalition and the NIP regionally. FY 22-23 staffing includes 1.75 FTE for two senior technical staff, 0.4 FTE for a staff scientist and 0.4 FTE for an accountant. The staffing salary total includes a 3% staffing overhead multiplier.

Total cost for administration (including staff training) will increase to \$300,077 in FY 22-23. This is \$6,757 more than estimated in the 2021-22 budget. This increase is due to the increase of fixed office expenses by \$1000 over estimated (based on a moving towards the TCF multiplier) and the larger increase than previously estimated in staff salaries. The budget is based on continuation of the contract with The Conservation Foundation for staffing and office space. Future costs are inflated by 3% FY23 to 26-27.

Monitoring Expenses

No monitoring equipment purchases are scheduled FY 22-23. The probe maintenance budget (\$22,680) reflects the utilization of 21 DO existing sondes and covers maintenance contracts on the sondes with \$2,500 being budgeted for supplies to maintain operations.

Watershed bioassessments continue to be budgeted on a four-year cycle. While no bioassessment is scheduled for 22-23, payment for completion of data analysis and previous bioassessments are scheduled to be made. The East Branch assessment was carried out in FY 19-20 and \$9,390 remains on that contract for completion of the analysis and documentation. The West Branch bioassessment was executed in 21-22 and \$38,040 remains in this budget. The Salt Creek bioassessment was executed in 21-22 and \$83,520 remains in that budget. The West Branch and Salt Creek budgets include increased budgets to cover additional lodging cost created for the contractor by the lockdown restrictions. All chemical monitoring costs were expended in the year of the survey and no expenditure is budgeted for 22-23.

The next bioassessment is scheduled for the budget year FY 23-24 (East Branch Biology \$145,030, chemistry \$57,600), followed by the West Branch in year 24-25 (Biology \$168,000, chemistry \$70,460) and Salt Creek in year 25-26 (Biology \$196,980, chemistry \$95,960). All future costs have been inflated at a 4% per annum rate (historically 3% used) and have a 10% contingency included. A new competitive bid for chemical monitoring will be requested in 22-23 allowing future costs to be more accurately projected.

\$5,000 is budgeted for any supporting sampling at reference sites deemed necessary for bioassessment support and this continues when the bioassessment restarts in 23-24. MS4 sampling starts again in 23-24 (\$1,020).

The FY 22-23 budget continues funding for managing the database (\$5,150) and the use of a summer intern to assist with monitoring and data management (\$3,090). Both numbers are inflation adjusted by 4% for each year thereafter.

Chloride Reduction

An amount of \$3000 is budgeted for the Tollway MOU Review/Offset Program. Five virtual workshops were held in 21-22 in conjunction with other watershed partners. These workshops were coordinated through The Conservation Foundation and are predicted to be cost neutral. The budget reflects continuation of the chloride reduction workshops with workshops again being planned in FY 22-23 and each year thereafter. The workshop costs (\$8,000) are based on holding physical workshops but make the conservative assumption that revenues will be limited to an on-line format (\$2,060). In addition a Level 2 Workshop is budgeted for \$4,000. The budget also contains \$10,000 for future initiatives, particularly for studying street sweeping uptake of chlorides. An additional \$7,010 is budgeted to complete the Chloride Study 2020. The budget allocates \$750 a year between 2022-23 and 2024-25 for the continued purchase of weather data. The budget contains \$3,000 for support of a 22-23 chloride questionnaire. Data collected is used to demonstrate TMDL compliance, in the Annual Special Conditions Report preparation, and for MS4 permit compliance. The chloride sampling item (\$1,020) is in support of a winter and summer chloride conductivity calibration update.

Other Projects

Expenditures for the Upper Salt Creek 319 Watershed Plan are shown here to the total of \$120,000 (\$55,083 in projected actual FY 22-23 and \$64,920 FY 23-24). This is balanced with \$120,000 revenues shown under grants.

Project Identification from Bioassessment Work

The IPS (Integrated Prioritization System) model identifies and prioritizes aquatic stressors identified through the DRSCW's bioassessment work and other available data sources. The project was funded by the DRSCW, the Lower DuPage River Watershed Coalition (LDRWC) and the Des Plaines River Watershed Workgroup (DRWW). The analysis covers Salt Creek, the entire DuPage River basin, and Lake County. It also draws on data from 12 surrounding counties using data supplied by IEPA.

\$2,200 is budgeted FY 22-22 for final payment to the contractor (Midwest Biodiversity Institute, MBI). Two thirds of this will be reimbursed for a final cost of \$730 to the DRSCW.

For FY 22-23, \$20,000 is budgeted for training in using the software hosting the IPS and \$10,000 for prepping the dataset for possible placement into the online database (total \$30,000). It is planned that the training costs will be shared with partners but the full cost is budgeted here.

Finally, a level of rigor analysis is budgeted (\$15,000) to evaluate the model's acceptability in a regulatory role.

Fund Balance

The FY 21-22 ending fund balance in the Workgroup Activities Fund is projected at \$469,573. The FY 22-23 ending fund balance in the Workgroup Activities Fund is projected at \$457,976. Ending fund balance FY 26-27 is estimated at \$489,976. This follows the next cycle of bioassessments and is indicative of a normal fund balance.

Workgroup NPDES Permit Special Condition Project Fund

The Workgroup is entering the final year of the original eight-year Special Conditions funding period. The Special Condition allows an extended implementation period for TP removal to 1 mg/l while the DRSCW implements phase one of its aquatic life improvement program. The plan includes for the first time funding and expenditures associated with phase two of the special conditions and aquatic life improvement program (starting FY 23-24) It also includes the first revenues from a private donor received via The Conservation Foundation (\$5,000 budgeted FY22-23).

The program, funded by Agency member project assessments, includes a number of physical projects aimed at maximizing aquatic life improvement and several studies identified as making future operations, notably in nutrient management, more targeted and efficient.

This budget item includes the estimated Agency member assessments, local matches from project owners, project sponsorships from other agencies, private donations and DRSCW recommended projects funded each year beginning in FY 15-16 and continuing to FY 26-27.

The DRSCW NIP, scheduled to be published at the end of 2023, will set out a long term schedule for agency member POTWs to meet recommended TP goals.

Agency Member Project Assessments

Agency member project assessments totaling \$1,988,476 were received in FY 21-22 which matched the budgeted amount.

Project assessments are budgeted at \$4,098,241 in FY 22-23 (which includes \$2,152,340 from MWRDGC) and \$2,992,351 in FY 23-24 (which includes \$1,862,278 from MWRDGC).

The POTW Agency members of the Lower DuPage River Watershed Coalition are participating in the studies. Under this agreement, \$61,044 was received FY 21-22 higher than the \$57,332 budgeted. Under the agreement revenues of \$28,666 are budgeted FY 22-23 and estimated FY 23-24. Total payments under this will total \$200,662 by final year 23-24.

The project assessments for phase one, including a final payment from MWRDGC of \$1,862,278 in 23-24, are projected to total \$15,250,248 over the eight-year funding period.

Shown in FY 23-24 to FY 25-26 are revenues collected under phase two of the special conditions, budgeted to total \$3,390,219 over the three year phase two period. The sub total estimated for DRSCW agency members for both phases is \$18,439,805. With addition of the LDRWC funds raises the end total to \$18,640,467, and the private donation raises it to \$18,645,467.

Project Costs

The following projects contained in the DRSCW NPDES Permit Special Condition are budgeted during FY 22-23:

- Fawell Dam – The budget allocates \$902,380 for final design, permitting, purchase and placement of the ladder, and grading of the downstream riprap. \$160,000 is allocated for post project monitoring and maintenance from FY 23-24 through FY 25-26.
- Spring Brook – Post-project monitoring is budgeted again FY 22-23 through FY 26-27 in coordination with the project partners (Forest Preserve District of DuPage County and the Illinois Tollway).
- Fullersburg Woods Master Plan – Budget allocates \$152,340 in FY 22-23 to cover finalization design, permitting and creation of the bid packets. Construction funds are scheduled to be available in FY 22-23 (\$2,000,000) and FY 23-24 (\$3,000,000). A further \$300,000 is scheduled for FY 24-25 to FY 26-27. Post project monitoring is budgeted FY 24-25 through FY 26-27 inclusive.
- Southern West Branch Stream Enhancement (Klein Creek) – \$1,200,000 is budgeted for construction and \$3,760 is budgeted to complete payment for the pre-project monitoring completed in 21-22. \$39,720 is budgeted between 23-24 and 25-26 for post project monitoring.
- Southern East Branch Restoration – \$354,765 is budgeted FY 22-23 for completion of design, permitting and bid packets. Construction funding is scheduled FY 23-23 (\$2,250,000) and FY 24-25 (\$1,750,000). Post project monitoring is scheduled for FY 25-26 (\$23,150) and FY 26-27 (\$24,310).
- Nutrient Implementation Plan (NIP) – The NIP is made up of several study areas. For FY 22-23, \$42,590 is budgeted for completion of the QUAL modelling with an additional \$12,870 for modelling on the Lower DuPage paid for by the LDRWC; \$25,170 is scheduled for any additional work for the NPS Phosphorous Feasibility Analysis (report was submitted at the end of 2021); \$201,090 is budgeted for NIP development notably the development and refinements of the proposed nutrient thresholds and how they relate to water quality goals.
- The Fund Contingency FY 22-23 is \$150,000.

Fund Balance

The ending fund balance of the Workgroup NPDES Permit Special Condition Project Fund is projected to be \$5,507,633 FY 21-22 and \$4,598,028 for FY 22-23. The project fund balance declines to zero in FY 26-27, at the conclusion of the program.

Recommended Action

The FY 22-23 one-page budget on page 6 will be presented for Workgroup approval at the DRSCW annual meeting to be held on February 23, 2022. The five year financial plan will be presented for information and planning purposes only.
